SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication

TECH SKILLS

- C
- C++
- Python
- Java
- Data Structures
- Frontend Web Development
- UI/UX (Basics)

LANGUAGES

- English (Fluent)
- Hindi (Intermediate)
- Marathi (Native)
- Kannada (Native)

OBJECTIVE

Aiming to contribute to innovative and impactful projects by applying my technical skills and problem-solving mindset to create effective web solutions.

EDUCATION

Bachelor of Technology in Computer Science

Shivaji University, Kolhapur | TKIET, Warananagar   2023-2026
GPA: 9.37/10
Key courses: Data Structures, Object Oriented Programming, Operating systems, Programming Languages

YCIS Junior College, Satara

HSC   2020-2022
Percentage: 72.12%

SDNC High School, Satara   2019-2020

SSC
Percentage: 92.20%

PROJECTS

AI Powered Health Monitoring Application   2024-2025

Designed and developed a desktop application that promotes healthy screen habits among software developers by monitoring posture, eye blinks, keyboard/mouse usage, and ambient light conditions. Key features include real-time feedback, low-light alerts, multi-user support, and detailed usage reports with visual analytics.

Technologies Used: Python, PyQt5, OpenCV, Mediapipe, SQLite, Matplotlib

Ecommerce Website UI clone(Amazon)   2023-2024

Developed a front-end clone of a shopping website inspired by Amazon, with a focus on clean UI/UX design and responsive layouts. Implemented key features like product listings, category filters, search bar, shopping cart interface, and user-friendly navigation. Designed for optimal usability across desktop and mobile devices.

Technologies Used: HTML, CSS, JavaScript, Bootstrap, React.js

COURSES AND CERTIFICATIONS

Certified in 'UI/UX Designing Basics' by Udemy.

Completed a web development internship, focusing on creating responsive websites using HTML, CSS, and JavaScript.
